

Pro Trading Journal

Template Access Instructions

Step 1: Access Your Template

Click the link below to open your Google Sheets trading journal template:

[Open Google Sheets Template](#)

Step 2: Make a Copy

In Google Sheets, go to **File** → **Make a Copy** to save your own personal version. Name it something like "My Trading Journal 2026".

Step 3: Start Journaling

Enter each trade into the **Trade Log** sheet. The Dashboard and Analytics sheets will automatically calculate your performance metrics.

Quick Tips

- **P&L; (\$)** — Automatically calculated from entry/exit price and position size
- **P&L; (%)** — Shows your return as a percentage of entry price
- **R-Multiple** — Measures your trade result in units of initial risk
- **Net P&L;** = P&L; minus commission (enter commission in column P)
- **Dashboard** updates in real-time as you log trades
- **Analytics** shows your equity curve and monthly performance
- Works with Google Sheets (free), Excel, and Apple Numbers

Built by a hedge fund trader. Trade smart.
